G. Organizational Capacity of a Program

When making a VOCA award, SAAs must determine that the program has either a record of effective services to victims of crime and support from sources other than the Crime Victims Fund OR substantial financial support from sources other than the Crime Victims Fund.

A program has demonstrated a record of effective services to victims of crime and support from sources other than the Crime Victims Fund when, for example, it demonstrates the support and approval of its direct services by the community, its history of providing direct services in a cost-effective manner, and the breadth or depth of its financial support from sources other than the Crime Victims Fund.

A program has substantial financial support from sources other than the Crime Victims Fund when at least twenty-five percent of the program's funding in the year of or the year preceding the award comes from such sources, which may include other federal funding programs. If the funding is non-federal (or meets the DOJ Grants Financial Guide exceptions for using federal funding for match), then a program may count the used funding to demonstrate non-VOCA substantial financial support toward its project match requirement. See 28 CFR 94.112(b).

H. Funding Restrictions

All awards are subject to the terms and conditions, cost principles, and other considerations described in 2 CFR Part 200, Louisiana Statute and LCLE policy.

NO VOCA funds may be used to fund or support the following:

- a. Lobbying
- b. Research and studies
- c. Active investigation and prosecution of criminal activities

The application will then be presented to the Commission on Law Enforcement for final approval after which time an award will be issued. Awardees are expected to comply with all special conditions, certified assurances, and will meet the quarterly programmatic and fiscal reporting requirements.

No diminished support policy is presently in effect for all programs, but the Board will reserve the right to approve a program at a reduced level. This will take into account other projects requesting funding and the past ability of the agency to appropriately expend its award funds. Funding is contingent on funds availability, proper subgrant management, meeting goals and objectives, and complying with all requirements. The board may make recommendations to the Commission to reduce funding or discontinue funding to those agencies not meeting these requirements.
